MD ANAS KABIR

ORACLE DATABASE ADMINISTRATOR

dba.mak.oracle@gmail.com | 016-4147728 | Md Anas Kabir | LinkedIn | Kuala Lumpur, Malaysia

Bangladeshi national · Valid passport · No visa restrictions

OCP CERTIFIED · 5+ YEARS ORACLE DBA EXPERIENCE · RAC · ASM · DATA GUARD · RMAN · GOLDENGATE

PROFILE SUMMARY

OCP-certified Oracle Database Administrator with 5+ years of hands-on experience managing mission-critical Oracle database environments across healthcare, banking, and government sectors. Deep expertise in Oracle Database 19c/12c administration, RMAN backup and recovery, RAC & Grid Infrastructure, ASM storage management, Data Guard configuration, and performance tuning. Proven ability to maintain high availability production databases, execute complex recovery scenarios, and proactively prevent downtime through robust monitoring and automation. Holds MSc in Software Engineering with additional specialization in Oracle RAC, Data Guard and database security.

CORE COMPETENCIES

Oracle DB 19c/12c/11g Administration · RMAN Backup & Recovery · Oracle RAC & Grid Infrastructure · ASM Disk Group Management · Oracle Data Guard · Performance Tuning (AWR/ADDM/ASH) · Multitenant (CDB/PDB) · Oracle Enterprise Manager (OEM 24ai) · Oracle AVDF Security · OPatch & Upgrade Management · Flashback Technology · Partitioning & Compression · Data Pump (expdp/impdp) · Oracle Cloud Infrastructure.

PROFESSIONAL EXPERIENCE

Database Administrator & Server Engineer — Dec 2024 – Sep 2026

Combined Military Hospital (CMH), Dhaka, Bangladesh

- Administer and maintain Oracle Database 19c RAC production environments in a mission-critical hospital setting, ensuring 99.9%+ uptime across all clinical and administrative database systems.
- Configure and monitor Oracle Data Guard physical standby databases for high availability and disaster recovery; conduct periodic failover and switchover testing to validate DR readiness.
- Manage ASM disk groups, perform storage capacity planning, and handle datafile, tablespace, and segment-level administration across production and standby environments.
- Deploy and configure Oracle Enterprise Manager (OEM 24ai) for centralized DB monitoring; set up metric thresholds, incident rules, and automated alert notifications for proactive issue resolution.
- Perform Oracle database performance analysis using AWR, ADDM, and ASH reports; identify and resolve top SQL, wait events, and resource bottlenecks affecting application performance.
- Automate routine DBA tasks — log archive management, stats gathering, health checks, space monitoring — using Shell scripts and cron scheduling, eliminating manual intervention.

Skills: *Oracle DB 19c · RMAN · RAC · ASM · Data Guard · OEM 24ai · Performance Tuning · Shell Scripting · Linux Server Admin*

Solution Engineer - Oracle — Apr 2023 – Nov 2024

Smart Technologies BD Ltd., Dhaka, Bangladesh

- Deployed and configured Oracle RAC (Real Application Clusters) environments on Oracle Database Appliance (ODA) for banking sector clients, delivering high-availability clustered database infrastructure with automatic failover.
- Configured Oracle Data Guard physical and logical standby databases with maximum availability protection mode; automated failover using Data Guard Broker (dgmgrl).
- Designed and executed RMAN backup and recovery strategies including encrypted backups, cross-platform transportable tablespaces, and point-in-time database recovery for financial sector clients.
- Deployed Oracle Audit Vault & Database Firewall (AVDF) for Exadata database activity monitoring, SQL firewall policy enforcement, and compliance reporting across government and banking environments.

- Gained hands-on laboratory experience with Oracle GoldenGate, including installation, configuration, and basic data replication setup for real-time data synchronization testing in a non-production (lab) environment.

Skills: *Oracle RAC · ASM · Grid Infrastructure · Data Guard · RMAN · GoldenGate · Exadata · AVDF · OEM · OCI*

Senior Executive IT (Oracle) — Sep 2022 – Apr 2023

Eastern Housing Limited, Dhaka, Bangladesh

- Administered Oracle Database 12c production and development environments on Oracle Linux servers; managed schema objects, tablespaces, user accounts, roles, and privilege assignments.
- Implemented and maintained RMAN backup schedules; performed datafile and tablespace recovery using RMAN and manual recovery procedures for both critical and non-critical outage scenarios.
- Monitored database performance using OEM and AWR reports; identified and tuned high-load SQL queries, resolved locking and blocking issues, and maintained optimal buffer cache and shared pool utilization.
- Managed Oracle application connectivity including listener configuration, tnsnames, Oracle Net services, and connection pooling for in house ERP applications.
- Performed routine database health checks including alert log monitoring, segment growth analysis, redo log management, and undo tablespace sizing.

Skills: *Oracle DB 12c · RMAN · OEM · Linux Administration · User Management · Performance Monitoring · Application Support*

Asst. Software Engineer — May 2021 – Jul 2022

Xactidea Ltd., Dhaka, Bangladesh

- Assisted in Oracle Database Administration activities including user and privilege management, tablespace monitoring, RMAN backup and recovery operations, performance tuning, alert log analysis, and database security administration in Windows Server environments.
- Installed, configured, and administered Oracle WebLogic Server, managing datasources, JDBC connection pools, application deployments, and troubleshooting enterprise Oracle applications.
- Executed Oracle Data Pump (expdp/impdp) export and import operations for database refreshes, schema migrations, environment cloning, and data archival while ensuring data integrity and availability.
- Developed and maintained Oracle APEX applications, including interactive reports, dashboards, master-detail forms, and custom HTML based reports using SQL and PL/SQL to automate business processes and enhance reporting capabilities.

Skills: *Oracle DB · WebLogic · RMAN · User Administration · Backup Operations · Windows Server*

Junior Software Engineer — Aug 2019 – May 2020

Pridesys IT Ltd., Dhaka, Bangladesh

- Developed and maintained Oracle Forms applications using PL/SQL, creating and enhancing data entry screens, validation logic, triggers, and business process workflows to support organizational requirements.
- Designed and customized Oracle Reports, including parameterized, summary, and analytical reports, to deliver operational and management information while improving reporting efficiency and accuracy.

Skills: *Oracle DB · ERP Support · Backup Operations · Patch Management · User Administration*

KEY PROJECTS

Oracle Data Guard DR Validation & OEM Monitoring – CMH — 2025

Designed and validated an end-to-end Disaster Recovery architecture using Oracle Data Guard physical standby at a military hospital. Conducted live switchover and failover drills, verified RTO < 15 minutes and RPO near-zero. Deployed OEM 24ai for centralized DB monitoring with custom AWR-based capacity and performance reporting for management.

Oracle AVDF Security Deployment – Government Statistical Bureau — 2024

Deployed Oracle Audit Vault & Database Firewall on VMware ESXi 7.0 to enforce SQL firewall policies and database activity monitoring across 8 Oracle database instances. Configured compliance reports for regulatory audit requirements and conducted DBA team training on AVDF policy management and incident response.

Oracle WebLogic 12c & Oracle Forms/Reports Deployment – Eastern Housing Limited — 2023

Deployed and configured Oracle WebLogic Server 12c to support Oracle Forms and Reports applications in a production environment. Installed and integrated Forms & Reports services with WebLogic domain, configured managed servers, OHS routing, and runtime components . Ensured stable application delivery, resolved deployment issues, and provided technical support for business-critical ERP forms and reporting modules used across operational departments.

Oracle Infrastructure Deployment – NZ Group — 2022

Implemented and configured VMware ESXi 7.0.3 virtualization infrastructure to support enterprise application workloads. Deployed and administered Oracle Linux 7 and Windows Server 2019 virtual machines with appropriate networking, security, and system configurations. Installed and configured Oracle Database 19c on Linux servers to provide a reliable and efficient database platform for business applications. Established a secure private virtual network between VMs, ensuring seamless inter-server communication, enhanced security, and stable operational performance across the environment.

Oracle APEX, ORDS, Web Server & Database Deployment – XACTIDEA Ltd. (Garments ERP System) 2021

Installed and configured Oracle Database 11g/12c to support the ERP system. Deployed Oracle APEX 19.x, ORDS 19.x, and Apache Tomcat 9.x on Oracle Linux and Windows Server, and integrated them for secure web-based application access. Configured Oracle Forms & Reports 11g for legacy modules and reporting, and implemented file upload functionality in Oracle Forms to support business document handling in garments operations.

CERTIFICATIONS

- Oracle Certified Professional – DB 19c: Performance Management & Tuning — Sep 2024
- Oracle Certified Professional – Oracle Database Security Expert — Sep 2024
- Oracle Certified Professional – DB 19c: RAC, ASM & Grid Infrastructure Administrator — May 2024
- Oracle Database Administration 2019 Certified Professional — Feb 2024
- Oracle GoldenGate 12c Certified Implementation Specialist — Feb 2024
- Oracle Exadata Database Machine X9M Certified Implementation Specialist — Feb 2024
- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional — Jun 2024
- Oracle Cloud Infrastructure 2023 Certified Observability Professional — Jun 2023
- Oracle Certified Professional – Oracle Fusion Middleware 11g Forms Developer — Jul 2019
- Oracle PL/SQL Developer Certified Associate — Jul 2019
- Ethical Hacking Essentials (EHE) – Coursera — Jan 2024
- SI Associate – MongoDB — Jan 2024

TECHNICAL SKILLS

Oracle Database
Oracle 19c / 12c / 11g · Multitenant CDB/PDB · Partitioning · Compression · Advanced Security · Label Security

High Availability & DR
Oracle RAC · Grid Infrastructure · Data Guard (Physical & Logical) · Broker (dgmgrl) · Flashback DB · GoldenGate

Backup & Recovery
RMAN (Full / Incremental / Archivelog) · Encrypted Backups · PITR · Incomplete Recovery · Transportable Tablespaces

Performance Tuning
AWR · ADDM · ASH · SQL Tuning Advisor · SQL Access Advisor · Explain Plan · Hints · Stats Management · Memory Tuning

Storage & Platform
ASM · Oracle Exadata X9M · Oracle Database Appliance (ODA) · Smart Scan · HCC · IORM · OCI Block Storage

Security & Compliance
Oracle AVDF · TDE · Database Auditing · VPD · Privilege Analysis · OPatch & PSU/RU Patching · DB Vault

Monitoring & Automation
OEM 24ai · AWR Reports · Incident Management · Shell/Bash Scripting · Crontab · Data Pump (expdp/impdp)

OS & Virtualization
Oracle Linux 6/7/8 · RHEL · Windows Server · IBM AIX 7.1 · VMware ESXi 7.0 · Oracle Cloud Infrastructure (OCI)

Tools
SQL*Plus · SQL Developer · Toad · PuTTY · DGMGRL · ASMCMD · ADRCI · OPatch · SVN · OEM Cloud Control

EDUCATION

M.Sc. Software Engineering
United International University, Dhaka
2021 – 2022

B.S.S. Anthropology
Jahangirnagar University, Dhaka
2013 – 2016

Professional IT Diploma
IsDB-BISEW – Database Design & Dev
2018 – 2019

LANGUAGES

Bengali — Native / Fluent **English** — Professional Working Proficiency
